# Orbiter Wall Lamp Spec Sheet

SKU: 3331.01

Among the first and most impactful designs in 1967, Orbiter defined the modern functional art that became the cornerstone and pathos of Robert Sonneman's life work. A simple arc supports a single boom that moves in balance throughout a hemisphere. Exhibited in museums and galleries, the Orbiter is an uncomplicated machine, so pure in its elements that the art of its simplicity has never been redefined more perfectly in the 45 years of its history.
